

Worldwide Leader in Aircraft Parts Distribution  
and PMA Development

# Component Repair & Overhaul Kits

*Wencor can kit parts for any work scope*

## Every Part You Need In One Package

*Choose any of our standard overhaul kits (see reverse) for maintenance on Landing gear, CSDs, Actuators, Starters, and many other applications.*

### *Why Use Kits?*

Kits are useful because most overhauls require replacement of multiple parts. Because a kit provides you with every part you need, you only have to make one phone call, send one purchase order and receive one package. Dealing with one vendor, you no longer have to worry about whether all the necessary items were ordered or when the last part will arrive.

### *Kits reduce cost in:*

- Purchasing
- Receiving
- Inspection
- Accounting
- Inventory Management
