"We are very proud to be recognized by our customers and receive these awards. The culture and attitude of our employees is engagement at all levels, allowing us to partner with our customers to be certain of their satisfaction. This supports a normal way of doing business and significant respect for all that are involved. I am honored that we were observed and credited for this behavior, but the true credit and honor is to be involved with a group of people that have such high standards", stated Greg Harwood, President of Wencor Interiors, MRO.

"I'm extremely excited about winning the Top Shop Award for the 4th consecutive year as it truly reflects and validates the effort to provide exceptional service by all of our teammates each and every day. This award recognizes the intangibles outside of the balance sheet needed to be considered a truly successful company built around a great culture.
