With over 20 years of customer-oriented service, our Absolute Aviation team proudly supports commercial aircraft on an international scale. We operate as an FAA-certified Repair Station with Limited Ratings for Accessory, Instrument, and Radio components. Our specialties include Communication, Electrical, Electro-Mechanical Accessory, and Lighting repairs.

Our skilled team of technicians often leverage DER and minor repairs to extend the operational life and performance of parts previously deemed expendable. In turn, we save time, resources, and capital for our customers.

We believe in the power of long-term solutions to drive ROI and performance. Every step of the way, we work with our customers to develop tailored approaches and better designs that meet and exceed expectations. Discover the Absolute advantage by working with our dedicated team today.

Absolute Aviation's diverse capabilities cover many types of components, including:

- Communication Accessories
- Lighting - Interior & Exterior
- Electrical / Electronic Units
- Printed Circuit Boards
- Power Supply Units
- Fuel Probes
- Printers
- Instruments
- Switches

Founded in 1969, our Fortner Engineering team has provided trusted hydraulic component repairs since the year of the first 747 commercial flight, a landmark event that introduced a new era of long distance travels in modern aviation.

As an FAA Repair Station, we proudly offer DER repairs and PMA parts as alternative material solutions that greatly reduce expenses while enhancing performance. Coupled with our rigorous quality assurance standards, our client-oriented approach has propelled us to the forefront of the industry as a global leader and innovator.

In 2017, we joined Wencor MRO in an ongoing effort to meet and exceed client expectations. Through our partnership, we've expedited our lead times while reducing repair costs. Additionally, we've integrated Wencor's comprehensive PMA catalog to greatly enhance our repair capabilities.

We attribute our continued success to the experienced technicians, engineers, and staff that drive our day-to-day operations. Our team is committed to client satisfaction and providing you the very best in hydraulic component repairs.

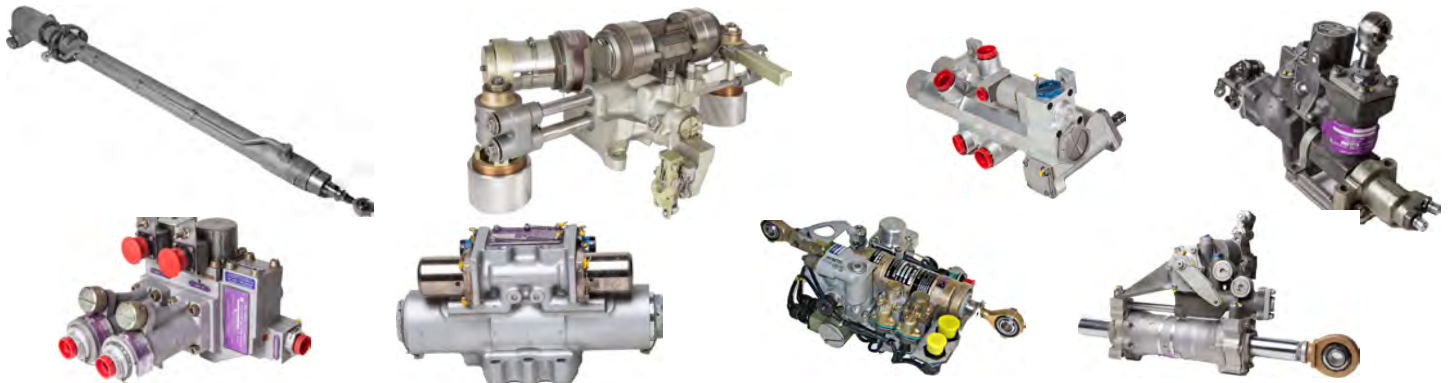

At Fortner, we keep your fleet **Ready to Fly!**

Fortner Engineering supports all types of hydraulic actuation components, including:

- Flight Controls
- Power Control Units
- Landing Gear Actuators
- Snubbers, Dampers & Manifolds
- Braking Metering and Steering Valves
- Thrust Reverser Actuators
- Electro Hydraulic Selector Valves
- Servo Control Actuators

Silver Wings Aerospace is the industry's choice for a full suite of Power Generation (IDG, Generator, CSD), Hydraulic Pumps, Fuel Pumps, and Electrical Accessories repair.

Widely recognized as the largest third-party IDG shop globally, Silver Wings proudly offers two Avtron test stands and the capability to test and repair every commercial IDG. Silver Wings also stocks more IDG's than any other supplier.

Joining Wencor MRO in 2018, Silver Wings brought its asset management model to the MRO group. Utilizing used serviceable material to lower costs while guaranteeing spares and exchange availability to create added value when combined with repair expertise.

Silver Wings supports a global clientele with a focus on customer service. Repair reliability, combined with asset availability and access to Wencor's extensive PMA catalog, gives our customers a unique solution.

Wencor MRO will keep your fleet **Ready to Fly!**
