

Export Compliance Certification

I understand that the part(s) and/or technology purchased from Wencor, LLC, hereinafter referred to as Wencor, or any subsidiary or affiliated company (Dixie Aerospace, Kitco Defense, Aerospace Coatings International, Absolute Aviation, Soundair Repair Group, Silver Fox Services, Accessory Technologies, Silver Wings Aerospace, Flight Line Products, Aftermarket Spares & Services, Star Aero, PHS/MWA, and Fortner Engineering & Manufacturing) are subject to the Export Administration Regulations ([EAR](#)) and/or the International Traffic in Arms Regulations ([ITAR](#)). I hereby represent and certify that the company listed below assumes responsibility for compliance to all U.S. export laws and regulations. I certify that I, nor any third-party entities at my direction or under my control, will sell, transport, ship, or transfer outside the borders of the United States, nor to any foreign person(s), any part(s) and/or technology, which are export-restricted by U.S. export control law and regulation, without proper U.S. government export authorization, licensing, and documentation. Furthermore, parts and/or technology, including but not limited to information and technical data, purchased from Wencor will not be:

- a. exported, re-exported, transferred, released or disclosed to any foreign person inside or outside of the United States without fully meeting the requirements set forth by the EAR and/or ITAR;
- b. exported or re-exported, without appropriate authorization, to any party or parties who has/have been designated as proliferators of weapons and/or supports of such proliferation;
- c. exported or re-exported to any person or group designated as Specially Designated Global Terrorists, Specially Designated Terrorists, or Foreign Terrorist Organization;
- d. shipped or transshipped to any country currently under an embargo by a U.S. government agency (Cuba, Iran, North Korea, Sudan, Syria);
- e. used in the design, development, production, stockpiling, or use of nuclear devices, missiles, or chemical and biological weapons; or
- f. transferred or disclosed to any individual or entity identified on an U.S. government restricted party list.

Wencor will identify the export classification of our products on our commercial invoice and shipping documentation. Those items controlled by the EAR requiring a license, as well as all ITAR controlled articles, will require additional documentation prior to being released. ITAR articles require the use of an approved license or exemption prior to being exported from the United States. If you require assistance determining the export requirements for an item purchased from Wencor, please contact our Foreign Trade Department (ftd@wencorgroup.com).

This Export Compliance Certification applies to the company listed below and shall include all subsidiaries and affiliated companies. I understand that I am responsible for ensuring that the export requirements outlined in this certification are conveyed to any subsidiaries and affiliated companies. If at any time the company becomes unable to meet the requirements listed in this certification, immediate notification will be provided to Wencor. By signing this document the signatory certifies that
